Functions Specifications Accessories Download Brochure Download Software

- **GPS Model**
- **16 Channels with scan**
- **CTCSS/DCS:**
Built-in 51 groups of standard CTCSS encoder/decoder and 166 groups of standard DCS encoder/decoder
- **DTMF**
- **Busy channel lockout:**
Transmitting signal is prohibited when the channel is busy
- **Time-out timer:**
Time-out timer can stop the transmitting automatically by pre-setting time limit to avoid any damage caused by long-time continuous transmission
- **Optimum Audio:**
The equipped large speaker offering a full watt of audio output brings loud and clear audio.
- **Multiple signaling and flexible selective call:**
Use the built-in CTCSS, DCS, DTMF, 2-Tone and 5-Tone capability to set up user's own talk groups and quiet stand-by when others are talking. In addition, special tone code, for group and individual calls, and more features are available to support flexible, selective calling operations.
